Community Together Logo - Usage

The full-colour logo is the preferred version of the Community Together logo and should be used wherever possible.

There are two versions of the logo supplied in portrait and horizontal format in full colour and Black and white format.

Always use the brandmark from the official master files provided. It must never be redrawn, modified, or altered in any way.

[Click this link to download master logo files](#)

If you require our logo in a large format please contact Claire

communitytogether@familylife.com.au

Portrait

Horizontal

Incorrect usage

Do not change colour

Do not add drop shadow

Do not scew, rotate or stretch

Community Together Logo - Partner

Your organisation logo and the Community Together logo must sit side by side. It can be full colour if on a white background, or monochrome (white, black) reversed out of background from the Community Together Primary Colour Palette (see pg 2). Each logo must be the same height proportions as the Community Together logo with equal spacing between each logo, as shown.

Contact Claire if you are not sure
communitytogether@familylife.com.au

You can select the most appropriate line to accompany the logos; Supporting Community Together, A Community Together Supporter, Proudly Contributing to Community Together.

Community Together Logo - annotated example

This is an example of the Family Life logo appropriately situated next to the Bayside Council Logo. It is on the Primary orange background, so both logos are white.

The Community Together logo is prominent at the top of the page because the poster is an initiative under the Community Together project.

Need someone to talk to right now?
